Email:

brijeshvazhunnor123@gmail.com

Address:

Kasaragod, Kerala

PROFESSIONAL SUMMARY

MSc Computer Science graduate specializing in Artificial Intelligence and Machine Learning, with strong foundations in machine learning, data science, Python, and web application development. Hands-on experience building AI/ML-driven applications and scalable web solutions using Python and Django. Passionate about applying AI and software engineering skills to real-world problems, with a strong interest in developing intelligent, data-driven solutions.

EDUCATION

Integrated M.Sc. in Computer Science with Specialization in AI and ML | 2021-2026

Nehru Arts and Science college Kanhangad, Kannur University

- Relevant Coursework: Machine Learning & Deep Learning, Data Mining & Data Warehousing, Neural Networks, Web Development & Database Systems, Computer Vision & NLP, Software Engineering & Design Patterns

PROJECTS

Examination Management System (EMS)

Academic Project, Sixth Semester – 2023

- Developed a Django-based Examination Management System for managing exam schedules, teacher records, and duty allotments.
- Implemented role-based authentication for Admin, User, and Checker modules with secure access control.
- Built dynamic features including semester-wise course selection, multi-teacher duty allocation, and automated duty summary reports.
- Integrated automated PDF generation for exam labels and reports to improve workflow efficiency.
- Tech Stack: Django, SQLite, HTML, CSS, JavaScript

Kannur University Folklore Fest-2025 Web Application

Independent Project – 2025 | GitHub: <https://github.com/brijeshvazhunnor/folklore>

- Built a responsive event registration platform with Django for Folklore Film Fest of Kannur University.
- Implemented file upload support for participant submissions and TIQR.Events payment integration.
- Designed a clean, mobile-friendly interface with HTML, CSS, and JavaScript.

Kerala State Inter ITI Arts Fest 2026 Management System

Independent Project – 2025 | GitHub: https://github.com/brijeshvazhunnor/KERALA_INTER_ITI_ARTSFEST.git

- Developed a Django-based web application for the Kerala State Inter ITI Arts Fest, enabling state-level event management for ITIs across Kerala.
- Implemented role-based dashboards, participant registration, team management, result processing and publishing, PDF participant card generation, and Excel-based event import with automated validation
- Designed a clean, mobile-friendly interface using HTML, CSS, Bootstrap, JavaScript, and SQLite.

Kannur University Kalolsavam-2026 Web Application

Independent Project – 2026 | GitHub: <https://github.com/brijeshvazhunnor/kalolsavam2026.git>

- Designed and deployed a Django-based event management platform for Kannur University Union Arts Festival 2026.
- Developed modules for student registration, event management, result publishing, and college participation workflows.
- Implemented role-based dashboards for Admin, Organizer, and College users with secure access control.
- Built features including item management, appeals system, public documents, responsive UI, and automated points table management.
- Tech Stack: Django, Bootstrap, HTML, CSS, JavaScript, SQLite/MySQL

AI-Driven Adaptive Programming Learning Platform

Final Year MSc Project – 2026 | GitHub: <https://github.com/brijeshvazhunnor/procodez.git>

- Developed an AI-driven adaptive programming learning platform using Django and Machine Learning to personalize coding education.
- Built a multi-language online code execution engine supporting Python, C, C++, and Java with automated test case evaluation and submission tracking.
- Implemented ML-based features including problem recommendation, struggle detection, solve prediction, adaptive test generation, and learning analytics.
- Integrated an AI-powered tutoring chatbot using a pre-trained Large Language Model for coding hints and error explanations.
- Applied machine learning algorithms including Random Forest, Logistic Regression, Linear Regression, and XGBoost for learner performance analysis.
- Tech Stack: Python, Django, Scikit-learn, XGBoost, SQLite/MySQL, HTML, CSS, JavaScript, Bootstrap

LEADERSHIP & POSITIONS OF RESPONSIBILITY

- Elected as Union Member of the College Students' Union at Nehru Arts and Science College.
- Elected as University Union Executive Member at Kannur University representing student coordination and organizational activities.

SKILLS

- Languages: Python, C, Java, JavaScript, HTML, CSS, LaTeX
- Frameworks & Libraries: Django, TensorFlow, scikit-learn, Pandas, NumPy, Streamlit
- Databases & Tools: MySQL, SQLite, Git, VS Code, Canva
- Development Areas: Web Development (Frontend & Backend), Machine Learning, Deep Learning, Data Preprocessing
- Soft Skills: Problem-Solving, Teamwork, Technical Writing
- Leadership, Responsibility, Team coordination, Representation experience

CERTIFICATIONS

Programming for Everybody (Getting Started with Python)

University of Michigan – Nov 2021

Credential ID: P2XYRZ3W3F96

- Covered foundational programming concepts in Python

IT Fest

- Calicut University INSIGHT

Participated in TECHNOVA as a part of INSIGHT'24 IT FEST conducted at Calicut University and awarded First and Second places
